

STOLEN BOATS CANADA

Non profit- Public Service

SAFE BOATING

The good weather is just around the corner and many of us will be heading out on the water to take part in our favourite water activities. If sport fishing is one of your pass times, make sure you are exercising good judgment when it comes to weather, stowage of gear and your capabilities. You must also be aware of the [Transport Canada Safety](#) regulations, [Department of Fisheries and Oceans](#) regulations for conservation interests and the Canada Marine Act while fishing and operating a vessel within the [Port of Vancouver](#). Please play within the rules and do it safely.

Male crab- thin triangular abdominal flap

Female crab- rounded shorter abdominal flap
